The Aspheric Len	s Study contract, as amended to	include general
consultation, has now	expired. It has been replaced	with a new time and
materials contract en	titled	work as principal 2
investigator under th	ese contracts has been rated on	ly at the above average
level because of his	laxity in meeting promised dead	-lines for reports and
other requested respo	nses. His "absent-minded profe	ssor-like" dispesition,
however, is more than	outweighed by his acclaimed ex	pertise and valuable
advice to us in the f	ield of geometric optics. Of	late, he has consulted
for NPIC on optical p	roblems associated with the	High Precision Stereo 2
Comparator, the	Advanced Rear Projection	Screen, and the2
Microdensitometer.
